E-safety tip	Tip #1: I should always ask a trusted adult before clicking 'yes', 'agree' or 'accept' online.	Tip #2: Try to recognise features of persuasive design and how they are used to keep users engaged (current and future use).	Tip #3: Lots of people sharing the same opinions or beliefs online do not make those opinions or beliefs true.	Tip #4 Know that when communicating online some people use a different 'language' to when they are speaking face to face.	Tip #5: You can change your mind about trusting anyone with something if you feel nervous, uncomfortable or worried.
